TELEGRAPHIC SUMMARY.
Sheridan's Memoirs.
NONQUIT, Aug. 28.—Anxiety
has been given Mrs. Sheridan, by
the report that publishers at Spring-
field and elsewhere are preparing to
issue unauthorized editions of
Sheridan's life. This has caused
Colonel Sheridan to announce that
General Sheridan's memoirs will
appear by December next, and this
is the only authentic life.

Cholera Epidemic.
SHERBOYGAN, Mich., Aug. 29.—It
is reported here that cholera is rag-
ing in Presqu' Isle county, and
people are dying like sheep, with
no physician in the neighborhood.
Nine persons have died in one day.
While the report may be exagger-
ated, it is known that a short time
ago people were suffering with
bowel trouble. The officials of that
county will investigate the matter.

It All Comes of Cleveland.
HELENA, Aug. 28.—Wool sold
three years ago at from 24 to 27
cents; this year it is selling from 14
to 17 cents, a decline of 10 cents, or
nearly 50 per cent. The wool men
of Montana—regardless of politics—
are almost unanimous in agreeing
that the tariff agitation of the past
three years has been a serious blow
to the wool industry of the terri-
tory and that it has cost Montana
an immense sum of money. Wool
is worth more in Montana at the
several shipping points, than in any
other market in the United States.

The Roslyn Mines.
TACOMA, Aug. 28.—Attorney-Gen.
Metcalfe came to Tacoma this evening
to meet Gov. Semple and go
with him to Roslyn to counsel with
the conflicting parties there and as-
sist in a settlement. As to-morrow
is the day for the examination of
the negro miners and their Pinker-
ton guards who have been arrested
as trespassers on the land claimed
by Alexander Ross, and as the
guards and negroes will of course
have to lay down their arms when
taken to court, it has been feared
that the Roslyn miners will seize
this occasion for entering the for-
tified mine No. 3 and executing their
threat to keep the negroes away. It
is at the request of Manager Buckley
that the governor, who is the chief
peace officer of the territory, and
the attorney-general, are going to
the scene of contention, and an ef-
fort presumably will be made to
bring about a settlement.

Take no Chances.
Those who take up government
land should be careful to learn and
strictly observe the legal require-
ments, or they may lose it. Here is
a case in point. "The secretary of
the interior, on appeal of the heirs
of Dorothea Medler, affirmed the
decision of the commissioner of the
general land office of February 8,
1877, holding for cancellation the
pre-emption cash entry of Dorothea
Medler, in section 34, of The Dalles,
Or., land district, for non-compliance
with the pre-emption law in regard
to residence.

A Choice Investment.
The Mexican Land and Develop-
ment Company, of No. 57 Broad-
way, New York, have acquired a
grant of public land in the state of
Tamaulipas, Mexico, covering sev-
eral million acres. It covers the
most fertile section of land on the
Continent, with a soil so rich and a
climate so perfect that three crops of
some cereals are produced in one
year. Its forests are also impassable
with the growth of rare and valu-
able woods. The standing timber
alone more than warrants the cap-
italization of the company controlling
the grant, yet in value it represents
but a fraction of the worth of the
millions of acres inexhaustible in
fertility and productiveness. A
limited amount of the Company's
stock is offered for sale at \$5 per
share. With each share is given a
certificate which entitles the holder
to five acres of land free. See ad-
vertisement elsewhere.

"The World Moves."
Maintained Galien, when his tormentors
racked him for advocating the true system
of Copernicus. Certain folks hold out,
however, against the illumination of dis-
covery and experience. There are hosts
of people who, because they have adopted
certain principles, continue to swallow
them to their dying day in defiance of
the laws of common sense. Mercury, dras-
tic purgatives, super-potent narcotics
and sedatives, though they have given
ground before the irresistible progress of
Hastetter's Stomach Bitters, a national,
painless remedy for disorders of the liver,
the stomach and the bowels, still continue
to make stupefying apothecaries shops of
many stomachs. The symptoms of liver
troubles are easily remedied without any
abdominal disturbance with this benev-
olent operative. So also are constipation,
sick headache, heartburn and an inability
to digest satisfactorily. It cures fever and
ague, rheumatism and kidney trouble.

TELEGRAPHIC SPLINTS.
In Sacramento the city trustees
propose to close the saloons at mid-
night.
President Cleveland has gone on
a three-days' fishing trip to the Blue
Ridge mountains.
A postoffice has been established
at Austin, Grant county, Oregon.
M. Austin is postmaster.
Blaine's next speech will be de-
livered in Calais, Ill.; he will chiefly
treat of the fishery difficulty.
A pension was yesterday granted
to Silpha A. widow of Charles
Kikendall, Snohomish, W. T.
Mrs. Shelter was horribly burned
in San Jose, on Monday night, while
fighting a fire with kerosene, and
died the next morning.
It is reported that the Inman and
International Steamship companies
will establish lines between Boston,
Liverpool and Antwerp.
A terrific tempest and hail storm
visited New Bedford, Mass., on
Monday night, and rain fell in tor-
rents. The hailstones were as large
as marbles.
Prof. Simmons, a veteran aeronaut,
was killed in England on
Monday evening while descending
from a balloon. His two companions
were severely hurt.
Creed Haymond, who made him-
self so conspicuous in the Chicago
convention, will be requested by
the national republican com-
mittee to speak in the campaign.
Public Printer Benedict is charged
with incompetency and speculation
in the minority report of the house
committee on printing, and a resolu-
tion proposing his impeachment
will be offered.

The evidence in regard to the
collision between the Oceanic and
City of Chester steamers in San
Francisco harbor seems to favor the
former.
Sells Bros' Circus.
Notwithstanding the large attend-
ance at the afternoon circus, over
two thousand people from the city
and the adjoining counties found
seats under the mammoth canvas,
last night. Those who were not
there a good while before perform-
ances found themselves crowded for
time to see the half dozen elephants,
six camels, the only pair of hippo-
potamus on the continent, lions,
tigers and many other wild beasts.
The performances were so varied,
coming on in such rapid succession
that it was a continual feast to
amusement seekers.
The horses were many in number
of fine appearance, and remarkably
trained. The imposing spectacular
entree in two rings, showed the large
company and the fine stock to mag-
nificent advantage.
Johnson's topical song with chorus
was tip-top. The grand baton leaping
was marvelous. So were the feats
of the English bounding and boun-
cing jockey. The lady riders are grace-
ful, daring and wonderful. The ac-
robatic feats were amazing. The
shooting by Captain Bogardus and
sons must be seen to be believed,
and then you almost doubt your
own senses. The trick elephant is
as funny as a clown and as intelli-
gent as a human being. The stand-
ing on two horses while driving
twenty-three, by one man, was as-
tonishing. But time and space fail
to tell all.
